

Foundation Training Job Description

Grade	F2
Placement	Respiratory Medicine
Department	<p>We have two respiratory wards: Ward 22 at Castle Hill Hospital (30 beds), and Ward 5 at Hull Royal Infirmary (24 beds). Ward H5 includes a 6 bed respiratory high dependency unit where we provide non-invasive ventilation for patients admitted acutely with respiratory failure.</p> <p>We run up to 25 Consultant-led respiratory outpatient clinics per week. Specialist clinics are provided for patients with asthma, chronic cough, cystic fibrosis, home ventilation, interstitial lung disease, lung cancer, pleural disease, pulmonary hypertension, and tuberculosis. These clinics are supported by our team of dedicated specialist nurses.</p> <p>Bronchoscopy lists run four times weekly at CHH. We provide endoscopic ultrasound (EUS) and endobronchial ultrasound (EBUS).</p> <p>The lung cancer MDT meeting runs weekly at CHH. The respiratory team provides 7 day specialist in-reach to the AAU. All the Respiratory Consultants contribute to the acute general medicine rota at HRI.</p> <p>We have a large commitment to teaching undergraduate medical students at Hull York Medical School, and we supervise training of 13 Junior Doctors and 9 Registrars for the Yorkshire Deanery. Our academic Consultants run the clinical trials unit and the basic science research laboratory at CHH.</p>
The type of work to expect and learning opportunities	<ul style="list-style-type: none"> • To build upon undergraduate education. • To gain experience and familiarity in dealing with a wide variety of medical conditions. • To develop the skills of history taking, physical examination, appropriate investigation and rational prescribing.

	<ul style="list-style-type: none"> • To master several basic medical techniques. • To improve communication skills with patients, relatives and colleagues. • To develop skills in managing time and conflicting priorities. <p>At the end of the four month period the FY2 will have obtained experience in the following:</p> <ul style="list-style-type: none"> • Diagnosing a wide range of common conditions • Treatment of a wide range of common conditions • Management of a wide range of common conditions <p>Trainees are encouraged to participate in audit.</p>
Where the placement is based	Castle Hill Hospital and Hull Royal Infirmary
Clinical Supervisor(s) for the placement	Six respiratory Consultants act as clinical and educational supervisors
Main duties of the placement	<p>You will be attached to wards H5 (includes respiratory HDU) at HRI and C22 at Castle Hill Hospital. (2 months attached to each.) There will be a Duty Consultant of the week for each ward.</p> <p>Ward H5: Dr Faruqi / Dr Greenstone / Dr Kastelik / Prof Morice / Dr Hart</p> <p>Ward C22: Dr Anderson / Dr McGivern / Dr Morjaria / Dr Molyneux</p> <p>There will be a Consultant or Registrar-led ward round most mornings. On other days you will have to opportunity to lead your own ward round, followed by a “board round” with your Consultant or Registrar. You should formulate your own management plan for each patient (“senior review” is not acceptable!). Depending on staffing and numbers of “medical outlier” patients, you may occasionally be asked by your ward Consultant to work on a different ward for a short period. You should be prepared to be flexible.</p>
Typical working pattern in this placement	Typical working pattern in this post e.g. ward rounds, clinics.
Employer	Hull and East Yorkshire Hospitals NHS Trust

It is important to note that this description is a typical example of your placement and may be subject to change.
