

Foundation Training Job Description

Grade	Foundation Year 2
Placement	Neurology/Stroke Medicine 14/YHD/RCD00/01/F2/017
Department	<p>Directorate information: This department offers excellent training in acute, elderly and general medicine with emergency cases admitted each day via the admissions unit. During the day the acute take has constant consultant supervision via the CATT team. The department operates a frailty, needs-based service on two base wards, with an acute and short stay service on the acute admissions wards. All major medical specialties have consultant cover; facilities include a stroke unit, CCU, HDU and ITU beds; CT, MRI, coronary angiography, permanent pacemaker fitting and endoscopy/bronchoscopy services are provided on site. Clinical support workers help on-call teams with venesection, ECG's et cetera. Specialist nurse teams include those for cardiology, diabetes, respiratory medicine and palliative care. In addition there are elective admissions in most specialties, and we have a day care unit that provides planned care: for example chemotherapy, and for rheumatology and dermatology conditions.</p> <p>Staffing in Medicine Directorate: There are 8 FY1 and 7 FY2 posts, 6 CMT's, 2 GP_VTS posts, SpRs and Speciality doctors who support consultants in various medical specialties. Visiting consultants from York and Leeds provide cover for renal medicine, vascular surgery, out patient dialysis and oncology.</p>

	<p>The post provides excellent training opportunities in stroke, neurology and elderly care and is supervised by two Consultant Neurologists, Dr Rosaria Buccoliero and Dr Richard Davey and one Elderly Medicine Consultant whose main role is in Stroke Medicine Dr Brotheridge. Dr Kate Sansam, Consultant in Rehabilitation Medicine, is based at Lascelles Unit.</p> <ul style="list-style-type: none"> -Specialty doctor neurology, CT1, FY1 and FY2 -Stroke Specialist Nurse - Allied Health Professionals, including one part-time Psychologist <p>Stroke patients are managed on Oakdale ward (includes hyperacute and rehabilitation stroke beds) as well as neurology inpatients. Neurology inpatients are also managed on Lascelles (rehabilitation unit). Neurology outpatients are managed in general Neurology clinics and as day cases on the Sir Robert Ogden MacMillan Unit. The outpatient clinics involve TIA clinic, General Neurology, Movement Disorder and Botox clinic. The FY1, FY2 and CT1 provide medical support to the wards and are therefore involved in the assessment and investigation of patients presenting with acute and subacute neurological and medical problems. Many of these will be managed as outpatients, but some will require admission to hospital. There are therefore opportunities to develop skills in the management of neurological and stroke outpatients. A close working relationship is maintained with radiologists, pharmacists and laboratory staff and the FY2s benefit from the advice of the broad multi-disciplinary team. The Consultants are always available for support and advice and encourage the junior doctors to sit in on clinics. There are opportunities in clinical and laboratory arenas for audit projects.</p>
<p>The type of work to expect and learning opportunities</p>	<p>This post is an opportunity to gain experience in General Neurology including Neurorehabilitation in both inpatient and day case settings. The junior doctors work as part of a cohesive multi-disciplinary team including consultants, physiotherapists, occupational therapists and administration staff.</p> <p>Educational Opportunities:</p>
