

Leadership for Clinicians Early in their Careers

Clinical leadership is a key element in all curricula and has been demonstrated to improve patient care.

Health Education England, working across Yorkshire and the Humber are now running free one day virtual courses for doctors and associated healthcare professionals in the region. Courses will be delivered by current clinicians and educators.

The course is aimed at doctors of the following grades: ST1-4, GPST, CT1-3. AHPs who are currently in training or early in their careers are also welcome to attend.

This course will be most relevant to those who have little experience of leadership training in the past. This will be an interactive, reflective day providing an understanding of clinical leadership and its role within the NHS.

Courses are currently available on the following dates:

11 th December 2020 - Fully booked!
15 th January 2021
22 nd January 2021
29 th January 2021
11 th February 2021
9 th March 2021

All booking is via MaxCourse, Please click [here](#) to be taken to the website. If you have any queries, please email: educationevents.yh@hee.nhs.uk
