

Educational Requirements for Specialty Trainees in Obstetrics & Gynaecology

Yorkshire & Humber 2020-21

During ST6 & 7 you will be expected to complete a minimum of 2 ATSMs and as such the priorities during this time will be to use study leave time to achieve both the theoretical and practical components of the ATSM. You should also be looking to acquire the necessary skills for a consultant post through management and leadership courses. Due to the COVID pandemic you may need to look at attaining equivalent evidence rather than the ATSM linked and HEE generic courses. If in doubt please contact the director of Education or Director of ATSM for advice.

ST6-7
